## IEG PI NOTICE

No. 47 - 74

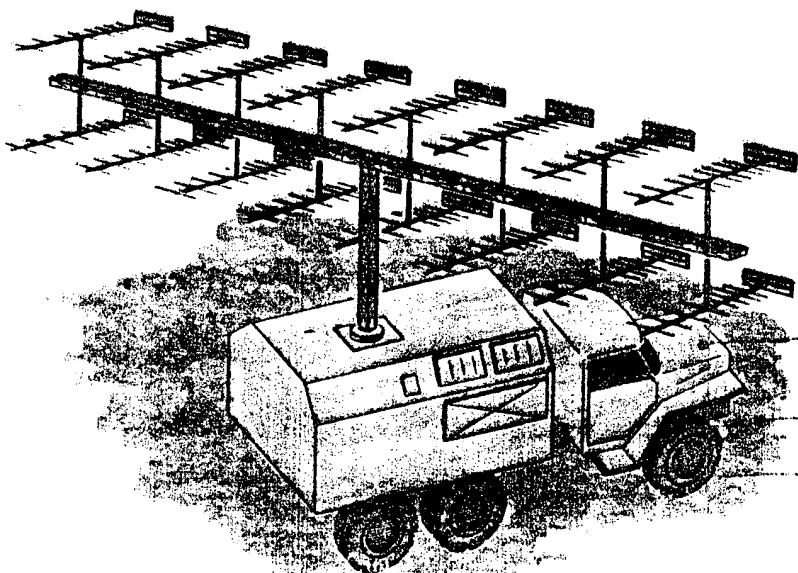

## TITLE/SIGNIFICANCE:

Probable new version of the SPOON REST radar identified at Sary-Shagan MTC

COMMENT: A probable new version of the SPOON REST radar has been identified at Sary-Shagan Missile Test Center, Launch Complexes A and E. Unlike previous versions of SPOON REST, it has an array of 16 rather than 12 stacked yagi antennas, and a major boom

for SPOON REST A and 60 feet for SPOON REST B. new array is mounted on a Ural 375 van truck. A second URAL 375 van truck and two van trailers are associated with the radar. This probable new version of the SPOON REST radar has already been deployed to at least three SA-2 sites and one airfield in the USSR.
